

## Unwrapping Relay Rules:

### *Before the party*

- Sign up as a participant here:

### *At the Party*

Participants will be split into two teams of 10 players. The teams will compete to unwrap their series of gifts the fastest, getting to the clue in the last box, and find the item hidden in room 100.

- No use of cutting implements (scissors/knives or teeth) allowed.
- Boxes will become progressively more difficult to unwrap with each level. Plan team arrangement accordingly.
- Teammate must return to the start line and tag the next member of the team for the next round.
- The last box will contain a clue to a hidden item in room 100. Work with teammates to figure out the clue and retrieve the item.
- First team to make it back to the start line with the item (without running) wins.
